

High Performance Products for First Class Floors

Subfloor preparation is becoming an increasingly specialist area due to the pressure for faster installation times, ultra smooth finishes and instant solutions to a multitude of problems.

So today, when the pressure is on and work must be finished without delay, contractors need products tailored to their needs, which they can rely on to get the job done. That's why, in addition to the established STOPGAP Green and Red Bag range of general purpose smoothing underlayments, F. Ball has developed a range of high performance, specialist underlayments.

Each high performance product has been formulated in answer to specific flooring requirements and provides contractors with bespoke solutions to the wide variety of conditions found on site. Underlayments incorporating the latest ultra-rapid drying technology allow floorcoverings to be installed in as little as 45 minutes, ensuring genuine fast-track performance for when time matters.

This comprehensive range of general and high performance underlayments is complemented by repair and finishing compounds which are designed to make floor preparation easier and quicker, ensuring that contractors using Ball products achieve a first-class finish every time.

Repair and Finishing Compounds

STOPGAP 400 REPAIR

- Rapid repair compound for internal floors
- Suitable for stairs, steps, and general repairs to cracks and holes
- Rapid drying
- Slump-free
- Designed for application between 2-50mm
- Can be used as a filled mix

REPAIR

STOPGAP 460 EXTERIOR REPAIR

- Rapid repair compound for external use
- Suitable for use under Stopgap 850 and waterproof surface membranes
- Rapid drying
- Horizontal and vertical application
- Compound stability will not expand in moisture
- Ready mixed

EXTERIOR REPAIR

STOPGAP 500 MICRO

- Floor finishing compound
- Minor floor repairs
- Can be spread to a feathered edge
- Gap-filling of plywood joints prior to installation of floorcoverings
- Rapid drying

MICRO

STOPGAP 800 WEARCOAT

- Self-levelling wearing surface
- For use in commercial and industrial areas where decorative floorcoverings are not required
- Suitable for light to heavy-duty internal areas
- Special class abrasion resistance
- High compressive strength
- Use with STOPGAP Seal to provide a hygienic and protective surface

WEARCOAT

STOPGAP 850 EXTERIOR

- Exterior grade smoothing compound
- Ideal for balconies, patios, garages, walkways and under external coverings such as artificial grass and playing surfaces
- Excellent as an exterior wearcoat
- Suitable for use under Waterproof Surface Membranes

EXTERIOR

General Purpose Underlayments

STOPGAP GREEN BAG

- Light to heavy-duty applications
- Fast set formula
- Excellent self-smoothing properties
- Suitable for use in biologically sensitive areas
- Suitable for use in clinical areas
- Suitable for use under STOPGAP Waterproof Surface Membranes

GREEN BAG

STOPGAP RED BAG

- Self-smoothing underlayment for use in light to medium-duty applications
- Suitable for absorbent subfloors
- Suitable for use in biologically sensitive areas
- Suitable for use in clinical areas
- Water mix
- Economical

RED BAG

High Performance Underlayments

STOPGAP FAST-TRACK 30

- Rapid Setting, Rapid Drying
- Ideal for time sensitive installations
- Allows foot traffic from 30 minutes
- Allows most floorcoverings to be installed from 45 minutes on absorbent subfloors
- Protein-free, suitable for biologically sensitive areas
- Application thickness from 2 - 10mm
- Excellent Self-Levelling Properties • Water mix

FAST-TRACK

STOPGAP 100 RAPID

- Uses ultra-fast drying technology
- Allows most floorcoverings to be installed in as little as 1½ hours
- Excellent self-levelling properties
- For light to heavy-duty applications
- Suitable for pump application
- Water mix

RAPID

STOPGAP 200 SMOOTH

- Outstanding self-smoothing characteristics
- Protein-free, suitable for biologically sensitive areas
- Rapid drying
- Extended open time for ease of application
- For light to heavy-duty applications
- Mix with STOPGAP 200 Acrylic Liquid

SMOOTH

STOPGAP 300 HD

- Heavy-duty underlayment
- Excellent self-levelling properties
- Fast drying • Water mix
- Suitable for hand or pump application
- Protein-free, suitable for biologically sensitive areas

HEAVY DUTY

STOPGAP 600 BASE

- Deep section compound for use where floor levels need to be raised quickly and economically
- Can be capped with STOPGAP 100, 200, 300, 800 or 1200 smoothing underlayments prior to installation of floorcoverings
- Suitable for use under STOPGAP 800 Wearcoat
- Can be pump applied • Fast drying

BASE

STOPGAP 700 SUPERFLEX

- Flexible, fibre-reinforced smoothing underlayment
- Designed for use over plywood and steel
- Uses ultra-fast drying technology
- Allows most floorcoverings to be installed in as little as 3 hours
- Excellent self-levelling properties
- DNV approved for marine use

SUPERFLEX

STOPGAP 1050 LITE

- Lightweight, fibre-reinforced, self-smoothing underlayment
- Cured density is up to 50% lighter than standard smoothing underlayments
- 11kg pack size offers manual handling benefits
- Designed for use on internal floors of new build and refurbished projects in light to medium-duty areas
- DNV approved for marine use

LITE

STOPGAP 1100 GYPSUM

- Calcium Sulphate Based, Self-Levelling Smoothing Underlayment
- Suitable for Gypsum Based Floor Screeds
- 2-10mm application
- Excellent self-levelling properties

GYPSUM

STOPGAP 1200 PRO

- Use over adhesive residues
- No need to prime
- Superior flow and smoothing
- 60 minute set time; fit floorcoverings from 4 hours
- CE marked for quality
- No ammonia and EC1 Plus
